TROOPS FIRE ON MOB AT LEXINGTON COURT HOUSE; FIVE KILLED

Rush Was Made By Mob With Rope After Negro Had Been Sentenced to Be Electrocuted On March 11.

TROOPS GO FROM CAMP TAYLOR

Lexington, Ky., Feb. 9.—Twenty people were wounded when a mob stormed the Lexington courthouse to lynch the negro, Will Lockett, and was fired on by troops.

Five died from their injuries. The attack was made just after the negro had been sentenced to die in the electric chair on March 11. The trial had been of brief duration.

The formalities were gone through with in a few moments, the evidence was heard and the jury found the negro guilty and sentenced him to death.

Crowd Dashed Forward With Rope Ready to Lynch

As the news of the court's action flashed through the crowd that had assembled outside the courthouse a shout of rage was raised. There was a dash forward toward the doors of the courthouse.

Cries of "Lynch him—" "Hang the brute—" "Don't wait until March—" rang out.

Troops Open Fire

As the mob swarmed toward the courthouse steps the officers in command of the troops shouted warnings to them.

"Don't come or we'll shoot."

The warning was unheeded and the troops opened fire.

Eight Fall Wounded

At the first volley the crowd whined, then fell back. Eight wounded lay upon the ground.

Among them were a policeman and a woman. They were rushed immediately to St. Joseph's and the Good Samaritan hospitals.

The prisoner has been spirited away to a place of safety and comparative quiet again prevails.

This is the negro who after criminally assaulting Virginia Hardman, the 14 year old daughter of Robert Hardman, of near Nicholasville, beat out her brains and hid her body in a shock of fodder in a nearby cornfield.

An attempt to lynch the negro, previous to his trial was made but the mob found Governor Stanley in personal command of the guards thrown round his prison, and were driven away.

ANSWERS CHARGE LAW VIOLATED IN ONE SUGAR SALE

Louisville, Ky.—C. E. Brett, president of the Stewart Dry Goods Company, surrendered to the Federal authorities at the Custom House last Friday, a warrant against him having been issued January 26, charging him with having made an unreasonable and unjust profit in selling one pound of Eastern cane sugar at 20 cents a pound on January 24, an excess of 2 cents of the price set by the Kentucky Fair Price Commission.

A plea of not guilty was entered by Mr. Brett before United States Commissioner Joseph A. Craft. The preliminary examination was postponed until March 5 at the request of his attorney, who is going to Florida. Mr. Brett was released on \$100 bond, furnished by W. W. Wilhoit, superintendent for the company.

United States District Attorney W. V. Gregory said that the sale constituted a profit of 3.3 cents when the fair price commission restricted sugar profits to 2 cents.

The warrant was sworn to by Dave Duckwall, and attache in the office of County Clerk Fred Nuetzel. It is said that Mr. Duckwall made the purchase at the instance of B. M. Kendrick, member of the Kentucky Fair Price Commission.

Company Explains Sale

An official of the Stewart Dry Goods Company said the sale of sugar was made January 24 and the Fair Price Commission's list did not go into effect until January 26. He stated that the company had not received any notification of the fix-

ing of the price or when it would be put into effect.

"Who gave the Kentucky Fair Price Commission the authority to set the price?" concluded the company official.

A JOKE ON THE MINISTER

While Judge Cook was in Louisville, last Saturday, a couple desirous of getting married, entered the Judge's office and finding no one in, proceeded to call Rev. R. D. Bennett, telling him to be prepared to marry them within a few minutes.

Bro. Bennett with his usual promptness, built a fire in the best room, donned his ministerial clothes and sitting down by the fireside, crossed his legs and waited. Seconds, minutes, years even hours passed and no couple came, so he began to think that someone had played him a practical joke.

After what seemed ages of waiting, the telephone rang and the groom notified him that he need not wait longer as they had met another minister on the way and were already enjoying their wedded bliss.

ENTERTAINED BY JUDGE WILSON

Rough River Lodge, No. 110, K. of P., held an interesting and enjoyable session Tuesday night. Officers were installed representatives to the Grand Lodge were elected and a lot of other business transacted.

The members present were entertained at the end of the session at lunch, by Judge John B. Wilson, in honor of his 25th birthday as a Knight of Pythias. The boys all expressed a desire that Knight Wilson live to repeat at the end of the next 25 years, that he would be mighty old.

There will be work in the First degree at the next meeting, Feb. 17.

BASKET BALL

The game between Hartford and Calhoun teams resulted in a score of 28 to 14 in favor of the Hartford boys.

Wednesday night, the local boys played Livermore on the latter's floor and suffered defeat, the score being 20 to 12.

The Beaver Dam team played Central City last night but we have not yet learned the result. As Beaver Dam recently defeated Hartford and Hartford has a better team than Central City, it is not probable that the Muhlenberg boys won.

AGED CITIZEN DEAD

Mr. W. K. James, one of the oldest and most respected citizens of the county, died at his home at Centertown, Jan. 27, of senility. He had reached the ripe old age of 93 and had been a member of the Masonic fraternity for 72 years, and was also a member of the Methodist church. He leaves 6 children and a considerable number of grand children and great grand-children besides a host of other relatives and friends.

The burial was conducted at Walton's Creek church Jan. 28 according to the rites of the Masonic fraternity.

ELDERLY CITIZENS MOVE TO ARKANSAS

Mr. Burch Eldson and sister, Mrs. Helen Petty, of near Davidson, left last Friday night for Arkansas. Mr. Eldson is 76 years of age and though retired in this state spent a portion of his life in Arkansas. Mrs. Petty is the widow of the late Joseph Petty and is 79 years of age.

WILSON AGAIN BRANES

LODGE TREATY DRAFT

Democrats Hope for Compromise But Admit Lodge Must Alter View

Washington, Feb. 7.—A letter from President Wilson, renewing his objection to some features of the peace treaty reservations framed by the Republican majority of the senate, furnished the basis of an earnest discussion today in a conference of Democratic senators called to consider what course the treaty's friends should pursue when it again comes before the Senate next week.

The only decision reached was to co-operate in the parliamentary action necessary to reopen the question of ratification and to work for an acceptable compromise on reservations. Just what sort of compromise should be considered acceptable was debated in the light of varying interpretations of the president's letter, but there was no attempt to frame a definite reservation programme.

Striking directly at the Republican reservation on article ten and various proposed substitutes, the president wrote that any reservation which said that "the United States assumes no obligation under such and such an article unless or except," would be likely to "chill" the relationship between this country and the other powers. A substitute article ten reservation concerning this language, which had been under consideration by the recently disbanded bipartisan compromise committee, the president wrote, was "very unfortunate" in form, though he agreed with its substance.

The letter was written on Jan. 26, while the bipartisan negotiations were in progress and before publication of the letter of Viscount Grey, former British ambassador to the United States, on the acceptability of the Republican reservations. It was addressed to Senator Hitchcock of Nebraska, the Democratic leader of the Senate, who laid it before the conference today.

QUALIFIES AS ADMINISTRATOR

Mrs. Little Douglas, of Barrett's Ferry, came to Hartford last Thursday and qualified as administrator of the estate of her son, Walter Douglas. This was necessary so that the Bureau of War Risk Insurance may legally send her compensation.

Dr. Lawrence and Mr. J. H. Lloyd, of Fordville, were in Hartford.

OLD GUARD IS STACKING

CARDS AGAINST WOOD

Culler Charges Plot to Eliminate Roosevelt Followers From Party

Washington, Jan.—Charges are made by Representative Fuller of Massachusetts that the Old Guard within his party is endeavoring to gain complete control of the national convention for the purpose of nominating a reactionary Old Guard favorite for the presidency. It is a repetition of many similar charges made against Will H. Hays, chairman of the Republican National Committee, and the Old Guard.

Fuller's charge follows an announcement from Chicago that "Jimmie" Reynolds is to manage the boom of Governor Coolidge of Massachusetts for the presidency. Reynolds has always been in very close touch with the Old Guard in the Republican party and now of his selection as Coolidge's manager therefore is taken as a bit of political strategy, the effect of which can only be told by later developments.

It is pointed out by Mr. Fuller that the Old Guard is determined to nominate a candidate to its liking—one who will not be in sympathy with the Roosevelt party.

He insists the cards are being stacked now so that former supporters of Roosevelt will be prevented from showing their loyalty in the convention. He demands that if he is elected as a delegate-at-large from Massachusetts, he will go into the convention to vote first and last for General Leonard Wood.

"I believe the Roosevelt element in the Republican party should insist on having an opportunity of expressing its choice of a candidate for President," said Mr. Fuller in announcing his candidacy as a delegate-at-large. "If chosen as a delegate I will vote for Leonard Wood, first, last and all the time. The Old Guard scheme is to elect delegates in each State who favor the favorite son of that State and by that method get together at the convention and elect a candidate of their choosing."

SULPHUR SPRINGS

Feb. 2.—Henry McKitt, of near here, made a short visit to his sister, at Reed Station last week.

J. E. Cox, aged 19, son of Albert Cox, was married last Friday at the office of Judge Cook at Hartford to Lizzie Berry, aged 17, daughter of Mrs. Laura Berry, of Beaver Dam. May life's greatest blessings attend them along the precarious journey of married life.

A telegram was received Sunday, announcing the death of the eight months old baby of Joy St. Clair, of Las Vegas, New Mexico. The remains will arrive at Olaton Tuesday. It came as a great shock to friends and relatives as it was their only child and Mr. and Mrs. St. Clair had just bought and moved onto a ranch in that state a few weeks ago.

A PLEASANT SURPRISE

Quite a number of friends of Mr. P. C. (Pete) Moss gave him a great surprise at his home in Kromos, on Sunday, Feb. 8. It being his 48th birthday. Everyone came with well filled baskets and the H. C. of L. was forgotten for a few hours at least. There were about 40 people present and all wish him many more such happy days.

POMERENE AND COX STRONG FOR PRESIDENT

Ohioans Try to Line Up Democratic Voters of Kentucky For President

New York, Feb. 8.—The New York Tribune prints a review of the political situation in Kentucky, written by Carter Field, a staff correspondent.

It is one of a series dealing with politics in different parts of the country. Extracts from the article follow:

There is more activity on behalf of Democratic presidential candidates in Kentucky than in any other State in the Union, with the possible exception of Ohio, right across the river, where the battle is between Cox and Pomerene for the honor of being Ohio's favorite.

Haldeman is for Hoover. Kentucky is the only State in which the Democratic national committeeman has come out openly for any other candidate than Wilson. Gen. W. B. Haldeman, until recently owner of The Louisville Courier-Journal, "is out flatly for the nomination by the Democrats of Herbert C. Hoover." When he was unable to deliver the delegation is another matter.

The two Democratic candidates mustering the most strength, apparently, are Governor Cox, Ohio, and Attorney General Palmer. Although Senator Pomerene, Ohio, has his headquarters in Covington, Ky., from which his propaganda is mailed out all over the country by his manager, who was formerly secretary to George Creel, Pomerene apparently has made little progress here. The strong sentiment for Cox seems to flow over the river from Ohio, for he is strongest in Kentucky in the counties along the Ohio River.

Attorney General Palmer is being boosted by an influential group of Democrats, including L. M. Smith, known locally as "Boss" Smith, because he is said to be always busy with politics. Smith was in the Adjutant General's office in Washington during the war and became a great admirer of Mr. Palmer. Most of the Democrats, however, are just marking time, wondering what the President is going to do. The probability seems to be now that while General Haldeman may have considerable to do with picking the delegation, it will be unimportant.

Hert Controls State G. O. P. General Wood paid a visit to Louisville January 29 for the purpose of lining up A. T. Hert, Republican National Committeeman. Everyone concedes that Hert, whose leadership carried the State and elected a Republican Governor last election, will absolutely control the delegation to the Chicago convention.

Mr. Hert gave a luncheon in the General's honor and seemed much pleased with his speech, but did not commit himself. On the contrary, he told close friends next day after the General had gone back to Chicago that he did not think he would tie up with any candidate, either now or in the near future, but probably would head an unimportant delegation.

Meanwhile some of the friends of Senator Harding, particularly down in the Sixth Congressional District, which is opposite Cincinnati, are very active in behalf of the Ohio Senator. It was this Sixth District, normally heavily Democratic, in which the Republicans made their biggest gains in the landslide for Governor Morrow.

Friends of Governor Lowden are also very active in the river counties across from Illinois, and expect to nail down a lot of delegates to the State convention.

Incidentally Champ Clark is very popular in Kentucky, and there are plenty of influential Democrats who say that if he wants the nomination he can have the Kentucky delegation. General Haldeman himself, although he has come out for Hoover, is an old friend of the Speaker and his friends think would not put a stone in his path.

BIG DONATION TO ROMANIA BY METHODIST EPISCOPAL CHURCH

In response to the special invitation of Queen Marie of Roumania, the Board of Foreign Missions of the Methodist Episcopal Church at the meeting of its Executive Committee voted \$5,000 cash to be sent immediately to her majesty for the relief of her destitute people, according to announcement by F. I. Johnson, Secretary of Cincinnati Area. An additional \$20,000 in supplies to be shipped as soon as procured was also authorized to go to Roumania to be distributed by

Dr. Elmer E. Count, Superintendent of Methodist work in Bulgaria, who will go to Bucharest for this duty. Dr. Count will work under the direction of Queen Marie.

"This special appeal to our organization from the Roumanian queen" said Dr. F. I. Johnson, "came as a result of the numerous reports reaching her ears of the tremendous projects for good which we are launching in all parts of the world, and especially of the relief work we are carrying on in the devastated countries of Europe. Queen Marie is striving to bring relief to the great numbers of destitute and starving children among her people. Many of these little folks have lost both parents through the ravages of war and invasion, and now live like wild animals in the ruins of their former homes in the scattered villages of the war area."

"This was an opportunity for relief work of a definite and desperately needed kind, and the church has responded at the earliest possible moment. The funds for this work as well as for other relief projects under way in France, Italy, North Africa, Scandinavia, Siberia, in the other parts of the Balkans, and in Central Europe, are supplied out of the \$113,000,000 Centenary offering of the Methodist Episcopal Church for a program of world regeneration, of which \$12,500,000 is to be spent upon war reconstruction in Europe alone."

WHAT OUR WORK STOCK NEED

The one thing the work stock of this section needs more than anything else is a large infusion of draft blood. There should be a hundred Percheron and Belgian sires of quality in service where there is now one. Only by the use of such sires can the size and weight of our work stock so sorely needed ever be had. The coming of the tractor has largely solved the motive power problem on many farms, and will help to solve it on many more, but horses are still going to be needed, even after the use of the tractor has become much more general than it now is, and those horses are going to need weight and power.

With draft stallions to cross on the mares in the country, a generation of young mares with 50 per cent of draft blood would soon be ready to produce mules of size and quality—mules such as those shown in the picture, mules such as the ones from Illinois and Missouri that bring the highest prices in the sale yards and take the first prizes in the show yards of this and other Southern states. The best "Tennessee mules" are not Tennessee raised at all; they have been bought by Tennessee buyers in the Middle West at long prices. Such mules will never be raised here until mares of size and substance are provided to raise them from.

There is a general idea that mules of the highest quality invariably have some trotting blood in them. There is probably some foundation for the idea; for the "hot blood" certainly gives a snap, a style, a finish that do not come from the draft blood. Also, it is definitely established that the mules with the scale and strength now demanded must have a liberal portion of draft blood. We have the trotting blood in abundance; the thing to do now is to get the draft blood needed and get ready to raise mules, as well as farm horses, of the type most needed and most in demand.

The draft sire, the Percheron sire especially, is the means offered the Central South to get the work stock it needs.—Southern Agriculturist.

Don't Neglect the Little Ones

A snuffling, sneezing, coughing child certainly is a reflection upon the parents. To permit a child to suffer from a cold is more than negligence; it is cruel. A cold that hangs on weakens the system and can easily turn into something serious. Mrs. J. S. Pitson, 376 E. 158th St., Cleveland, Ohio, writes: "I can't speak too highly of Foley's Honey and Tar. When my little girl has a cold I give her Foley's Honey and Tar and that stops her coughing in a little while." Children like it. It contains no opiates. Sold everywhere. (Advertisement.)

WAR PLANTS MAKE AMMONIUM

Washington, D. C.—Plants built by the Government during the war to produce nitrogen are being converted for the manufacture of ammonium sulphate and other normal products so that they can be retained or used in time of necessity, the War Department announces. Their output of ammonium sulphate and the like meet like will meet agricultural and commercial demands.

Get More Work Out of Your Tractor by Using a Tractor Disc Harrow

Keep your tractor as busy as possible at work that pays. It suffers less depreciation when you use it than when you let it stand idle. It keeps on returning profit on your investment.

Besides using it when you plow, use it in disking before and after you plow. That makes a well-prepared seed bed—the kind that pays most.

Come to our store and let us show you the John Deere Pony Tractor Disc Harrow—a sure profit maker behind any standard tractor.

This is an exceptionally strong, light draft, flexible harrow. It has a separate lever for angling each gang so that

all tendency of harrow to crowd to one side when working in hard and soft ground, or on hillsides, can be overcome.

Its third lever makes thorough pulverizing possible. With it you can raise or lower the inner ends of the gangs of the front section to make all the discs penetrate at equal depth the entire width of the harrow.

There are other features on this harrow which we would like to show you, such as double bargang frames, twice as strong as any single bar gang frame, all steel stub pole and adjustable spring steel scrapers. Be sure to ask us about these features.

Schoolgirl is Assaulted and Murdered On Road Near Nicholasville

Nicholasville, Ky., Feb. 5.—While on her way to school, within sight of her home, Virginia Hardman, 14 years old, daughter of Robert Hardman, wealthy farmer, at South Elkhorn, five miles from here, on the Lexington pike, was criminally assaulted, her brains beaten out and her body hidden in a fodder shock in a cornfield this morning.

Officers and armed posses of citizens are searching for Will Locker, a returned negro soldier, who was seen in the vicinity while the girl was on her way to school.

Lynching Is Feared

The crime is the worst ever committed in this section. Citizens were aroused to a high state of excitement and indignation. Feeling is running so high it is feared a lynching may result of the offender is apprehended.

Armed men are guarding all cross roads. Deputy Sheriffs and Capt. V. G. Mulliken, with his bloodhounds, have been on the trail since the discovery of the victim's body and are hopeful of effecting an arrest.

To Guard Against Influenza

Don't let the dread influenza get you. If you have even the slightest cough or cold, better begin using Foley's Honey and Tar at once. Henry Willis, Sandy Point, Tex., is one of many thousands who consider this remedy "just fine." He says: "I suffered severely with a bad cough; after using four or five dollars' worth of different medicines decided to try Foley's Honey and Tar. One bottle gave relief. Best medicine I ever used." Contains no opiates. Sold everywhere. (Advertisement.)

THE Sampson Tractor Model M

Is the last word in modern tractor construction. It is not like the average I-Beam and Channel-Steel Frame Tractor that weighs so much, it takes a large per cent of its own power for propulsion. It is a close coupled power unit all by itself from radiator to rear wheels. Every working part is inclosed and protected against dust, mud or rain.

It Has No Lost Motion

for it is built and lubricated throughout like a high-priced auto, insuring great efficiency, ease of operation, maximum length of life and service.

This is the lowest priced of any modern tractor on the market today.

DE LAVAL

The World's Standard.

You will do your self an injustice if you don't try the De Laval before buying. It has fewer parts, therefore longer life; makes a better quality of butter fat, having taken all premiums for butter at the Creamery Convention for the last 25 years; and there are more De Laval's in use than all other makes combined, which is sufficient evidence of the superiority of the De Laval. Call us for a demonstration.

LONG DISTANCE RADIO PHONE TALK A SUCCESS

R. F. Gowen Announces Results
Of Experiments With
Improved Phone

The possibility of carrying on wireless telephone conversations at any distance is believed to have been brought within reach by experiments conducted by Robert E. Gowen, engineer in charge of the De Forest Radio Company station on Overton Road, Ossining, the results of which were made public yesterday. Employing a small aerial, a wave length of only 375 metres and one-third kilowatt of power, Mr. Gowen has talked to Chicago and other Western cities in ordinary tones and been heard without difficulty.

His apparatus is a development of that used during the war, but his achievement goes far ahead of anything accomplished then. During the war conversations were engaged in between airplanes and the ground, or between ships a few miles distant from one another. In Mr. Gowen's experiments, which have been carried on during the last thirty days, he has talked over a distance of 900 miles.

"We have reached the commercial development of the wireless telephone under all conditions, I should say," he stated yesterday, "for a distance of at least 300 miles—a service that is identical with the long distance telephone."

An important phase of the work is that it has progressed during grant static and atmospheric disturbance and interference from other stations.

Surprised Radio Telegrapher

"In spite of all this," said Mr. Gowen, "when I picked up the telephone transmitting apparatus at Ossining and spoke into it, just as any one might speak into the ordinary telephone, I discovered that my voice was being distinctly heard, first of all, in the little town at St. Mary's, Ohio. The radio amateur at St. Mary's, it seems, was at that time picking up the local dots and dashes, and when he heard this voice from out of the air, the sending location of which was reported to be Ossining, N. Y., he was, to say the least, somewhat startled."

"He immediately answered by sending me a telegraph inquiry which I distinctly heard in my own receiving apparatus. I then repeated my conversation to him and asked him to confirm the conversation immediately by letter. This he did."

"In the same way on other evenings following this initial performance, my wireless telephone voice it appeared, thrown into the bottle at Ossining, was immediately picked up at Columbia City, Ind., and afterward by other amateur stations at Salem, O., Gaffney, S. C., Wakefield, Mass., and Chicago. In each case the local operator, as one of them has written me, 'nearly tumbled out of his chair' when in his ordinary local radio work he suddenly heard a voice from the wilderness of New York."

Experiments Not Heralded

"In no case was any advance information given that I was to talk by wireless, so that those receiving the message were not on the lookout for the messages."

"Talking in an ordinary tone of voice, I said, for example: 'This is Ossining. I am talking at Ossining, N. Y. If you get this message, kindly let me know by letter. Address your letter to R. F. Gowen, Ossining, N. Y.'"

As a climax to the experiments, Mr. Gowen, last Thursday night, by arrangement with Dr. Amos O. Squire, prison physician at Sing Sing, sent the following notice by wireless telephone of the execution of Hamby:

"Hamby, notorious murderer, who shot two Brooklyn bank employees, was electrocuted here at Sing Sing prison to-night. Dr. Amos O. Squire, prison physician, pronounced him dead at 11:13 p. m. Hamby went to the chair boldly smoking a cigarette, making a few remarks just before the current was turned on. Hamby was cold to the end. R. F. Gowen, Ossining, N. Y. Stations receiving these signals please notify by mail and oblige."

Two elements make possible this advance in wireless telephony, according to Mr. Gowen. One is a new type of modulating circuit, and the other a new type of glass in the manufacture of the wireless tube or audion—the device referred to as "the bottle." The effect of the new circuit is to render voice transmission much clearer, while use of the new type of glass permits of much greater input circuit in the development of the wireless power. All the experiments were conducted on

\$600,000 WORTH WHISKEY SEIZED

New York, Feb. 6.—Four carloads of whiskey, valued at \$600,000, were seized at a North River pier today by order of John J. Quigley, Assistant Federal Prohibition Agent, and transported under an armed guard to a bonded warehouse. The shipment, which included 4,798 cases, was marked for "medical purposes," but Mr. Quigley held that the law had been violated, as the shippers, R. E. Wathen & Co., distillers, of Louisville, Ky., had no permit to ship it. The goods were consigned to "order."

LAW OR MOB

A girl is dead, her brains beaten out; 5 men are killed and 20 others wounded; 900 troops stand guard over Lexington and the approaches thereto; and that city is in a state of Martial law, all because of the lusts of an ill bred, low down, degenerate black brute. Should he be bound to a tree and his body plucked to pieces by placement, the punishment would yet lack in severity, but in a civilized land the duty of meting out punishment to criminals is not delegated to the public at large. If it were, within 10 years the term "civilized" could not be truthfully applied to us.

Under our form of government, every man accused of a crime is entitled to be tried by a jury of his peers and punishment given according to their rulings, if it be according to the established law of the land. In the case of this savage, the law was swift, and the sentence of death was given within forty minutes after the trial began. This unfortunate affair is to be regretted, but the officers of the law were only upholding the right of organized government to prevail over mob law. Every right thinking citizen will hold the same opinion.

The recent murder of a 10 year old white girl by a negro comes as if in answer to the attempt of certain legislators to erase from our statute books the law providing for the death penalty in such cases. Is there a citizen in all our land, who believes this brute should not be electrocuted?

THAT RAILROAD BILL

Last Thursday, a telegram was received here stating that a representative of the L. & N. R. R. had made the statement that that company was willing to enter an agreement to give efficient passenger service on the M. H. & E. R. R. provided a committee of representative Ohio County citizens would meet them in Louisville on Saturday February 7.

On Friday morning, a mass meeting was held at the Bank of Hartford and the following citizens selected as a committee to meet the company's officials in Louisville the next day: W. M. Fair, Claude Blankenship, J. E. Bean, C. E. Smith, S. A. Bratcher, Dr. Pirtle, Judge Mack Cook, J. I. Goodman and Amos Carson.

When these men presented themselves at the offices of the L. & N. R. R. Co. in Louisville, those in authority disclaimed any knowledge of any such promise and refused to make any such agreement. Hon. I. S. Mason, author of the House Bill providing for proper passenger service, was present at the meeting and returned to Frankfort with more determination than before to get the bill passed.

This bill is in the hands of the committee on statistics, which committee met yesterday afternoon. When the date of this committee meeting was announced, the citizens of Ohio County held another mass meeting, and sent the following delegation to appear before the committee and give them the facts about the kind of service the M. H. & E. has been giving: M. L. McCracken, Logan Barnard, Tom Likens, Isaac Foster, W. H. Renfrow, R. R. Riley, Squire W. S. Dean, Noble Baird, Cal P. Keown, M. L. Heavrin and S. O. Keown.

There is every reason to believe that the measure will pass the Lower House and a strong probability that it will pass the Senate.

We are in receipt of a letter from Rev. J. W. Chapman, of Bois City, Okla., in which he says he has accepted the care of the First Baptist church at Buffalo, Okla., and will move there this week.

G. R. Ogden, of Shinnston, W. Va., says: "I have used AVALON FARMS HOG-TONE 56 days and I think it is the best medicine I ever used. I have two pigs 4 months and 3 days old that weigh 360 pounds, one 6 pounds heavier than the other. They are 100 pounds heavier than my neighbor's 2 of the same litter and feed."

This is the experience of a typical user of Hog-Tone. There are hundreds and hundreds of letters on file at the Avalon Farms Company's office from nearly every state in the Union, all telling of big improvement in hogs and in hog profits through the use of Hog-Tone, the scientifically prepared Hog Conditioner, Fattener and Worm Remover. Not A Tack—Not A Nail

Billiken Shoes

Are made without a tack or nail; of the softest, toughest leather known, on hand, sensible, improved foot-bank, is the perfect child's shoe ever made—the shoe a child craves.

Buy "Billiken" Shoes and let the children romp and play to their heart's content without annoyance to you, injury to the home or discomfort to themselves.

The growing feet of children are easily irritated by stiff soles or narrow shoes. "Billiken" Shoes are made by specialists in the largest shoe factory in the world, devoted exclusively to the manufacture of Children's High Grade Shoes. The soles on "Billiken" Shoes are Pure Oak Flexible Leather—the softest and most pliable leather known, being especially prepared to withstand hard service. The absence of nails, tacks, etc., prevents the children scarring the floors and furniture. The soft soles render the shoes noiseless. Flexible soles make them as comfortable as a meccasin. The durable leather makes them as lasting as a man's heavy shoes. And they are extremely stylish.

Fresh As the Breezes, Lovely As the Sun, is This

Voile Week

SPRING INTRODUCES AIRY, FAIRY VOILES

One might say that the Fairy Godmother had dipped her wand into the rainbow, and then gently touched these summer fabrics. 'Tis difficult to say which are more lovely, the delicate plain shades or those in colors blended.

This week we have designated as "Voile Week." Its a time when our prettiest wash fabrics will be on "Dress Parade." You will no doubt, enjoy seeing this exhibition even though you have no definite idea of purchasing now. If you find it inconvenient to see our displays write us and we will gladly send you samples.

FOR YOUR NEW FROCKS—COLORED VOILES

Plain Voile has made itself extremely modish and there is predicted an even stronger revival than that of last year for Cotton frocks, just such charming frocks as plain voile with its slight crispness would make. Here is a rainbow of lovely shades from which to choose; pink, rose, Nile green, Copenhagen blue, navy, grey, taupe, canary, buff and tan; 40 inches wide; at the popular prices of per yard,65c and 85c

WHITE VOILES

These are considered very charming, especially for summer frocks; they are so light and airy and have such an inviting charm; 40 inches wide; n range of prices from,50c to \$1.25

COLORED DOTTED SWISS

All the way from the Swiss Alps has a splendid collection of fine dotted Swisses come. Here is a goodly supply of this fabric which will soon prove its vogue at fashionable resorts for charming Spring frocks. The color combinations are navy and Copenhagen blue, with small white pin dots.

Then there are to be found this dainty cloth in white with colored pin dots such as Nile green, cerise, orchid and Copenhagen blue. These are 30 inches wide and priced, per yard,\$2.00 and \$2.25

FANCY VOILES

A wondrous array of fancy voiles in Georgette patterns and even bold floral effects. The softest, loveliest voiles are presented in wonderful display and are ready for your inspection. The color combinations are most interesting, the brightest ones perhaps gaining greatest attention. The assortment is so very complete in wide range, selection is very simple. All are in exquisite taste, however and developed in beautiful colorings from the light delicate shades to the more subdued colorings; 40 inches wide in range of prices, per yard, .50c, 75c, \$1.00, \$1.25 and \$1.75

WHITE VOILES WITH PLAIDS AND STRIPES

Beautifully sheer and evenly woven voiles, in new and very striking plaid and stripe effects. Very suitable for the daintiest of summer frocks and blouses; 40 inches wide; a range of prices from,50c to \$1.25

PETER PAN CLOTH

This new cloth which is enjoying its first season on the market is proving very popular. For children's dresses and play suits it is sure to please and give the best of wear. This cloth is 32 inches wide and comes in the spring colorings, such as Copenhagen blue, light blue, Nile green, lavender and tan; also white with very small colored checks; price per yard,65c

COIN DOT PONGEE

For Sport dresses this cloth is very fashionable; has a high lustrous finish and of sturdy texture; 36 inches; shown in navy and Copenhagen blue with white coin dots only, per yard,\$1.00

Women will be glad to know that we have quite a showing of new hats for Spring. There is a great variety of models, combination of Georgette and satins with fancy braids, lierre straws in becoming new shapes, the roll brim leading, also droop and straight brims. These hats come in the new shades for Spring, with flowers, ribbon, ostrich and wing trimmings; the prices range from,\$5.00 to \$15.00

NEW TAILORED HATS—in straight, sailors and banded effects. These are especially for immediate wear.

THE FIRST PEEP AT THE SPRING SUITS.

Discloses such interesting ideas, that you will be most enthusiastic about making a selection at this time. Gaiety is chiefly sought in the brilliant colorings or in the combining of two fabrics in most pleasing and clever ideas. Variety of assortment awaits your inspection.

GINGHAM IS THE FASHION FOR SPRING WASH FROCKS

Because everyone will wish for two or three or possibly four dainty gingham frocks for Spring time; and because weavers and designers have spent more than usual time and skill in making them, these gingham will interest you. They are here in resplendent collection. Many have traveled from Scotland. Many are old fashioned checks and such pretty frocks may be evolved from them. The prices range, per yard,39c, 45c, 50c and 75c

Tobacco Canvas

The season for buying Tobacco Canvas is at hand. Buying direct from the mills, we are able to quote you prices which will save you money. The mills call us the "Tobacco Canvas House of Kentucky." LALLEY LIGHT and POWER

Lallely-Light is a complete unit—engine and generator—with 10-cell storage battery. It supplies ample electricity for lights, water pump, washing machine, elevator, cream separator, farming mill, iron, etc.

Preferred by Progressive Farmers

Every prospective buyer of an electric light and power plant should know that there is a pronounced preference for Lallely-Light.

This is especially so among progressive farmers—the keenest men in every locality. If there were no other reason

for the Lallely preference, the fact that it has been in use for ten years would be sufficient.

But there are many good reasons—the greater Lallely economy, its greater power, its long life, and the actual savings it makes in time and labor and money.

DEMOCRATIC LEADERS SEE SWEEPING VICTORY

Believe People Will Reward
Competent Administration
Of Public Affairs

Washington, D. C.—The political pot is beginning to boil and bubble on Capitol Hill. Democratic leaders are putting the Republicans on the defensive and embarrassing the leaders. Majority Leader Mondell is under a fierce fire. Republicans of the old progressive group are weary of the Mondell partisan way of doing things; they fear he will cause a reaction against them back believe that the voters of the nation will return the Democrats to full power in Washington next November.

(1) Because the federal office of the country, now largely in the hands of Democrats, are well administered.

(2) Because the Democratic administration conducted a successful war against the German autocrats.

(3) Because the Democrats enacted more constructive and helpful legislation within the last eight years than the Republicans did in the four decades prior to their downfall ten years ago.

(4) Because the Democratic leader—President Wilson—has the greatest personal following of any man in public life in the United States. Since the death of Colonel Roosevelt the Republicans have no leader with a strong personal following.

(5) Because the country is prosperous and the average man is having his day.

Believing these things to be true, Democratic workers of Congress will take the offensive now, and be the aggressors in all rough and tumble political fights. If the Republicans continue to play politics, as they have done since the Sixty-sixth Congress convened, the Democrats will meet them on their own ground.

There is promise of a spirited war in the House where the Old Guard partisans are fatally bent on making trouble.

Legislation To Soldiers

Minority Leader Champ Clark and his chief lieutenant, Representative Claude Kitchin, have routed Frank W. Mondell, the Republican leader, and Phil Campbell, chairman of the Rules Committee of the House, in the controversy over proposed soldiers and sailors legislation. The Republicans have been camouflaged; they would court favor with the returned fighting men, but have no intention of doing the right thing by them.

"I would like to ask the gentleman from Kansas (Mr. Campbell)," inquired Mr. Clark recently, "when they are going to bring up the soldiers' farm-land bill?"

Mr. Campbell said he was not able to advise the minority leader.

"That bill has been reported and has been on the calendar here for five or six months—since August 1—and a great many people want to know when anything is going to be done about it, or if anything at all is going to be done about it, and why it is not brought up and considered," insisted Mr. Clark.

"That bill provided three things: First, to get water onto the dry land, and to take water off of wet land, and to take over cut-over lands. Here is the point: Before this Congress met, Secretary Lane got up a bill which is now called the Mondell bill.

"It was heralded all over the country, with a great flourish of trumpets and braying of brass bands and everything else that that proposed legislation was one of the chief things that the extra session of Congress was going to meet for."

Representative Walsh and Campbell tried to divert Mr. Clark but without success.

"We have been running for seven months on what the gentleman from Illinois (Mr. Mann) calls 'chicken-feed' bills, and nothing has been done about this important legislation," declared Mr. Clark.

Mr. Kitchin, laughing, said Mr. Clark was cruel to the Republicans.

"That question is very embarrassing to the chairman of the Rules Committee," said Mr. Kitchin. "He is not in favor of the bill himself, and it is quite embarrassing to the majority leader. I can tell you when the Republicans are going to give you some information about that. They are going to wait until the national convention to tell the American people what they are elected to the next Congress. It seems that the gentleman who introduced this bill has not even pushed it, has not asked the Rules Committee to report it out, and has not asked unanimous consent for its consideration. I thought it was a

real bill for the soldiers and not for buncome."

Refuse To Appropriation

It was made plain during the consideration of the postoffice appropriation bill in the House that Majority Leader Mondell and other Republicans are playing politics with the vital interests of the people. The striking down of the air mail service by refusing a small appropriation to develop new air routes has angered progressive Republican Congressmen who assert that their leader has antagonized populous cities of the West which desire quicker communication with the East. Proposed extensions of the flying service of the Postoffice Department would have been especially serviceable to middle western States, such as Missouri, Indiana, Illinois, Minnesota and Ohio, and to the Pacific coast cities.

Representative Tilson, Republican, of Connecticut, broke out in meeting on the subject.

"I have been proud of my membership in this House," said he, "but I look with shame upon sentiments expressed here on this subject. The action taken by the House not only denies development of the mail service, but also denies the opportunity for development of the airplane industry of this country."

Mr. Mondell was severely criticized by Representative Byrnes of South Carolina for playing politics by making increases not requested by the Postoffice Department.

"After his committee succeeds in taking some \$70,000,000 additional from the Treasury," Mr. Byrnes said, "we find the Republican leader coming in here and urging that the House deny the small sum of \$350,500 to the aerial mail service and he takes this action after he is shown conclusively that the appropriation of this amount of money will result in an actual saving in the end."

The anti-air policy of the Republican leaders of the House has about completely ruined the splendid services built up by the Army and Navy. The plans of the Postoffice Department to develop a useful and extensive air mail service connecting the distant points of the country will be given up if the House program is followed by the Senate.

The Republican began their attack on the air service soon after they took charge of Congress last May. Former Representative La Guardia, of New York, led the attack. Now Majority Leader Mondell is leading it. He denied that the service expedited mail, and refused to accept statements that it had paid for itself.

The postoffice officials cannot go ahead with letting contracts or making other necessary preparations for the flying service next year. They planned to link all of the important cities from coast to coast in the next few months.

"The new air routes would reduce by one-half the mail time by train," the Department announces. "For instance, a letter mailed in New York would reach the Pacific Coast in approximately 45 hours and 15 minutes, west bound, against 90 hours and 30 minutes, west bound by train, and 51 hours air time, east bound, against 102 hours, east bound, by train time. The Postoffice Department is also considering the establishment of a hydroplane route down the Mississippi river from St. Louis to New Orleans, stopping at Cairo, Ill., Memphis, Tenn., and Vicksburg, Miss."

Oppose Progress

Anything that promises progress and advancement is met with opposition on the part of the leaders of the Sixty-sixth Congress. Any proposition on the part of a Democrat to aid the people carry on their business is halted by points of order or other parliamentary tactics.

The following amendment, offered to the postoffice appropriation bill by a Democrat, was promptly knocked out by an objection raised by Representative Madden of Illinois: "Provided further, that hereafter the Postmaster General, under such rules and regulations as he may prescribe, is authorized to make contracts with telephone and telegraph companies for the transmission of letters by electrical means of communication."

"Provided further, that the rate to be paid such telephone and telegraph companies for the transmission of such letters by such means of communication shall not exceed 30 cents for 100 words or less, and that the rate of postage prescribed by the Postmaster General for such letters shall be such as to cover full cost to the postal establishment for such service."

The Postoffice Department desires this constructive legislation for the benefit of the masses. Had it been accepted by the Republicans and enacted into law, wire service would have brought within the reach of all classes. The amendment provided that the sending of such message

or letters was not to cost the postal service anything. It would have resulted in a larger and better service, and a larger benefit to the public.

SCHOOLS TO TEACH

HEALTH LESSONS

Frankfort, Ky., Feb. 7.—The Kentucky Committee on Physical Education, of which George Colvin, superintendent of public instruction is chairman, made public a number of abstracts from an article in the current number of the Southern School Journal, entitled, "Why Physical Education for Kentucky Schools?"

"With a certainty that a bill providing for Physical Education in all Kentucky schools will be presented to the legislature, and with more than the probability of the measure becoming a law, every teacher must make up his or her mind whether or not to be 'fer' such a measure."

"It is worth while to train our boys and girls in a higher degree of physical strength, not only that they may protect the country in time of war, but that they may make it a more joyous place to live in time of peace?"

"We have it on the authority of the health department of our state, that we spend annually more money for the privilege of having typhoid fever than we spend on our public school system. Money spent for the privilege of having typhoid or any other preventable disease (and all disease is preventable if the body is kept in a condition of perfect health) is money wasted. Thrown away and in a bad cause; used to minister to unnecessary suffering, to sadden the heart of the bereaved and to drop the burial clouds on the caskets of our beloved. If we can, through physical training, increase the percentage of immunity from typhoid fever among our people, we shall have made a splendid financial investment."

"The measure which is now in only tentative form is a good one, except that as it now stands, it carries an appropriation insufficient for rapid work; and we need help and need it quickly."

"We are tired of being sick; teach us the lessons of perfect health, and stay with us until following the teaching becomes a habit. We are tired of burying our dead because of our or their ignorance; let us learn to keep them with us until the time comes when, like a withered leaf which has performed its work, we shall gently loosen our hold on life, and be wafted downward to rest on the bosom of Mother Earth, M. D."

"We are tired of paying doctors to make us well; we'd rather pay them, after the fashion of some Orientals, for keeping us well."

PLANNING FOR BIG DEMOCRATIC CONVENTION

New York.—Plans to make the forthcoming Democratic National Convention at San Francisco on June 28, the most successful in the party's history were formulated at a meeting here of the committee on arrangements of the Democratic National Committee.

The meeting which was held at the National Democratic Club in its historic Fifth avenue club house, was presided over by Chairman Homer S. Cummings and was attended by nearly all of the members of the arrangements committee, including Mrs. George Bass, of Chicago, and Miss Mary E. Foy, of Pasadena, Cal., the two women members.

Informal discussion of the temporary organization of the convention disclosed that all members of the committee had an open mind in regard to the selection of the temporary chairman, who in accordance with custom will make the opening "keynote" speech. This honor probably will not be conferred for several months.

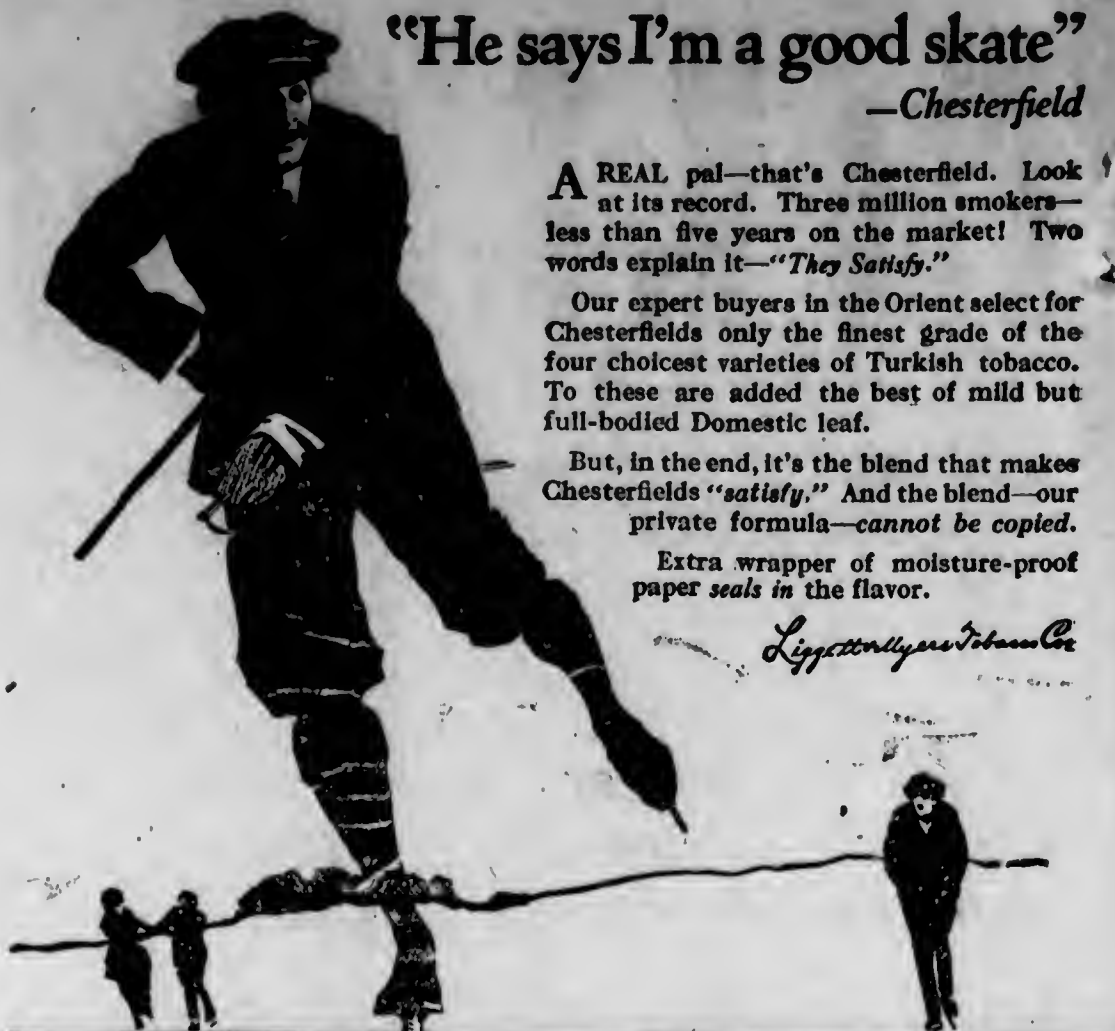

Subcommittees to handle various phases of the convention arrangements were named by Chairman Cummings as follows:

Hotel and Entertainment—Isidore H. Dockweiler, California; John T. Barlett, Colorado; Dr. John W. Coughlin, Massachusetts; Robert H. Elder, Idaho; Mrs. George Bass, Illinois.

Transportation—Charles Boeschelstein, Illinois; Patrick H. Quinn, Rhode Island; Wilbur W. Marsh, Iowa; Fred T. Lynch, Minnesota; Isidore H. Dockweiler, California.

Hall and Seating—Norman E. Mack, New York; Wilbur W. Marsh, Iowa; Edmund H. Moore, Ohio; Arthur F. Mullen, Nebraska; Miss Mary E. Foy, California.

Pickets and Badges—Homer S. Cummings, Connecticut; Edward G. Hoffman, Indiana; Dr. John W. Coughlin, Massachusetts; J. Bruce Kremer, Montana; Charles Boeschelstein, Illinois.

—Chesterfield

A REAL pal—that's Chesterfield. Look at its record. Three million smokers—less than five years on the market! Two words explain it—"They Satisfy."

Our expert buyers in the Orient select for Chesterfields only the finest grade of the four choicest varieties of Turkish tobacco. To these are added the best of mild but full-bodied Domestic leaf.

But, in the end, it's the blend that makes Chesterfields "satisfy." And the blend—our private formula—cannot be copied.

Extra wrapper of moisture-proof paper seals in the flavor.

Get Your Tractor Now

THOUSANDS of farmers now own Titan 10-20 tractors. Ask any of them whenever you get a chance and you will hear that they found owning a tractor operating successfully on low-priced, low-grade fuels—kerosene, distillate, etc.—is a paying investment from the very outset.

At hundreds of International tractor schools in the past few months farmers have been shown that kerosene engines must be specially designed—and that Titan 10-20 tractors are specially designed and built to operate on kerosene, or any other crude oil distillate testing 39 degrees Baume or higher.

Titan—The Best Tractor Buy

They are easier to handle than a farm team and easier to care for. You can get your work done on time, plow deeper, prepare better seed beds, do more work with less help, and get more profit from your farm. They do belt work that cannot be done by horses and pull more in proportion to weight than horses. Horses must have rest whether the work is crowding you or not. If necessary, you can keep your Titan working continuously, without rest, until the work is done.

Here you have economy, efficiency, dependability—three prime essentials of farm power—carrying an assurance of bigger crops, better yields, and fatter profit. Order a Titan early. Be sure of having it for the labors ahead.

A BOX OF ADVICE

First—Don't Delay. Second—Don't Experiment

If you suffer from backache; headaches or dizzy spells; if you rest poorly and are languid in the morning; if the kidney secretions are irregular and unnatural in appearance, do not delay. In such cases the kidneys often need help.

Doan's Kidney Pills are especially prepared for kidney trouble. They are recommended by thousands. Can Hartford residents desire more convincing proof of their effectiveness than the statement of a Hartford citizen who has used them and willingly testifies to their worth?

L. P. Turner, farmer, Clay street, Hartford, says: "I am glad to recommend Doan's Kidney Pills because they relieved me when my kidneys and back troubled me. I consider Doan's Kidney Pills a reliable kidney medicine and deserving of great praise."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Turner had. Foster-Milburn Co., Props., Buffalo, N. Y. Advertisement.

Which Would You Buy?

IF YOU were buying a farm and there were two farms of exactly the same size for sale, located right next to each other, and if the soil was just the same but — one farm had 80 acres under cultivation and all in crop while the other had only 50 acres in crop, the crops being the same kind and the farm with the 80 acres in crop had a big red barn and a good house while the other farm had only a small cabin for a house and an old straw-and-mud stable for a barn —

Which farm would you buy in a case like that if the price was about the same in both instances? Foolish question, isn't it?

Well, then —

If you were buying a new wagon and there were two different wagons of the same size that sold at about the same price, but — one wagon had exceptionally well ironed gears, was equipped with a "fifth-wheel" to distribute the strain on the front bolster and prevent whipping of the tongue and rocking of the bolster, and was also equipped with a swivel-reach-coupling to relieve both front and rear gear, axles, wheels, and brake of twisting strains when riding over rough ground, chuck holes, etc. — a wagon just like the standardized auto-track Weber — while the other wagon had none of these features — and we have not yet mentioned the quality of wood stock and the seasoning of the Weber to say nothing of the fact that the Weber Wagon's known reputation is unquestioned —

Which wagon would you buy? Tell us the answer when you are ready to buy a new wagon. We are the exclusive agents in this town for Weber standardized auto-track wagons.

A Kentucky Woman

Rundown-Nervous-Weak

Newport, Ky. — "I most heartily recommend Dr. Pierce's Favorite Prescription for my long-continued nervous weakness. Several years ago I was run down and nervous with over-exhaustion, and Dr. Pierce's Favorite Prescription and Tablets saved me from all my troubles and restored me to perfect health and strength. From that time to this I have had no more trouble of my description, so I feel sure that mine was a genuine cure." — MRS. AMANDA L. GUTHRIE, 193 Columbia St.

ANOTHER TESTIMONY

Louisville, Ky. — "Dr. Pierce's Favorite Prescription is the very best medicine a woman can take. I suffered for years with organic weakness and at times I suffered so that I would be compelled to give up and go to bed; my back ached and pains would extend down into my limbs. I would become stiff and numb and was hysterical at times. I was so miserable and had no recourse to help me until I began taking the 'Favorite Prescription' and this medicine so completely cured me that I have never had the least trouble since. I can recommend it to the best advantage. I have taken it for the ailments of women." — MRS. E. CASHMAN, 224 Franklin St.

FOR YOUNG MOTHERS

Louisville, Ky. — "I can never thank Dr. Pierce enough for what his medicine has done for me. I had nursing sore mouth and was so weak I could hardly walk. My baby also suffered. I got medicine from our family physician but it did me no good. I grew worse instead of better, so I must in despair I began taking Dr. Pierce's Golden Medical Discovery and before I had taken half a bottle I felt like a different woman and when I had finished taking that bottle I was almost well. I believe I would have been in my grave had it not been for this medicine." — MRS. EMMA PEAK, R. 4, A. Box 314.

Foley's Honey and Tar COMPOUND

AN OLD RELIABLE FAMILY REMEDY, recommended for coughs, colds, tickling of the throat, spasmodic croup, whooping cough, la grippe, and bronchial coughs, hoarseness, etc.

The First Dose Gave Relief

C. E. Summers, Holdrege, Neb., writes: "Some time ago I contracted a very severe cold and cold due to exposure. My cough got so bad I could hardly sleep for two or three nights. A friend of mine recommended Foley's Honey and Tar Compound, and I got a bottle. The very first dose relieved me. I took a second dose before going to bed and can truthfully say I did not cough once all night. By using as directed the next two days my cough was entirely gone, and I give Foley's Honey and Tar full credit for my speedy and permanent recovery."

For more than thirty years Foley's Honey and Tar has been used with satisfaction and success. SOLD EVERYWHERE.

MISS JACKSON ENTERTAINS
EXPRESSION STUDENTS

On Saturday evening, Feb. 7, from 6:30 to 9:30, Miss Jackson entertained her Expression Students at the home of Mrs. A. B. Gardner, of Beaver Dam. They were met by Miss Loyce Gardner, and carried to the east room on the second floor where they were received by the hostess. Immediately after the arrival of the guests a "Twilight Hour" was observed. Miss Henle Porter, was chosen as leader, then jokes and games followed. After that came the "Social Hour." Then they were led to the dining room below, where dainty refreshments were served, the table being spread for the number of guests, and ornamented by a blue bird luncheon set. The hand painted blue bids were given to each of the guests as favors. When the time of departure drew nigh, the guests lingered to express their gratitude to Miss Jackson for the charming way in which they had been entertained. We feel sure that Miss Jackson's Music pupils have an event to look forward to in the near future.

Mr. Ira Acton, of Olaton, R. F. D. No. 1, was a pleasant caller, while in town, Monday.

Mr. H. R. Taylor and daughter, Miss Eula Lee Taylor, of Vine Grove, Ky., came to Hartford last Wednesday to visit Mr. Taylor's sister, Mrs. Rowan Holbrook and Mr. Holbrook. To their surprise they found that Mr. and Mrs. Holbrook now live in Owensboro, so they left for that city Thursday. Mr. Taylor is a tobacco buyer in the burley district, and has not visited Hartford for about 19 years. He says the town has greatly improved since his last visit.

Mr. and Mrs. R. J. Hewlett, of Livia, Route 2, left recently, for Florida where they will spend the remainder of the winter with their daughter, Mrs. Sallie Brooks.
